WALL STREET EXPECTS QUICK TURN FOR BETTER .

Indications Are That Early Weeks of New Year Will See Greater Activity.

PRICE MOVEMENT UPWARD

Buying Orders From Pittsburgh for Steel Startle Shorts and Give First Impetus for Advance-Shifting of Speculative Interest.

NEW YORK, December 28.—Prices opened dull and firm, Within a few minutes a buying movement developed, and advances ranged from 1 to 2 points. Dullness without weakness followed, succeeded by renewed neityity and a continuation of the upward movement that closed stocks about the op. Buying orders from Pittsburgh for Steel, Reading and other leaders startled the small shorts and gave the first impetus to the

Reading and other leaders started the small shorts and gave the first impetus to the advance.

There was a feeling of relief as stocks drew away from the "peg" prices. The action of Steel common was watched closely as a key to the present industrial situation. This stock moved easily from is to 49, and, after a slight hesitation, advanced to 49. Union Pacific rose 2 points on small transactions. Southern Pacific moved more slowly while Pennsylvania recovered to 1014.

Speculative interest shifts all round the room but Reading always manages to retain prominence in the day's work. It was the leader to-day in point of activity, with a gain of 24. Lehigh Valley jumped 2 points on the turnover of 1,600 shares. The speculative supply of this stock has been much reduced, and quotations were about 2 points apart between the bid and asked. Copper stocks were strong with an advance in Utah to 483. Recent reports state that this company has reduced the cost of production considerally Annalgamated Copper rose from 1614 to 114.

Africka naivanced from 5 to 214, on a revival of the rumor that rights will shortly egiven stockholders. Beet Sugar advanced to 235.

M. K. & T. dropped to 8%, a new low.

NEW. YORK. December 28.—The stock market to-day recovered much of the ground cost in last week's declining movement. In provement began at the outset and was maintained to the very end, at which time the day's best prices were recorded. Trading was on a larger scale than at almost any time since the resumption of open dealines, with activity most pronounced in the international group. Net gains averaged almost 2 points with sharp recoverles from their minimum by such important shares as United States Steel and Southern Pacific. The rise extended to a number of special-ties including equipment stocks and Bethichem Steel A few of the less active stocks, including Chicago and Northwestern and Chesopoake and Ohlo, fell to established the sprices.

Realty transactions recorded yesterday were of a light order. The arents in the main are optimistic over the prospects for the coming year. Business for the past several days has been light due to the weather conditions, which have prevented the agents from showing property to prospective purchasers. Inclement weather prevented the holding of several auction sales that were scheduled for yesterday.
